Press Release

Frankfurt / 12 April 2018

Festival programme of the Photography Triennial RAY 2018 24–27 May 2018

In its third edition, the international photography triennial RAY 2018 presents outstanding contemporary photography and related practices at more than ten venues in Frankfurt and the region. Through a multitude of correlating exhibitions on the theme EXTREME, more than 40 selected artists reflect upon social transformation, concepts of identity, and aesthetic tendencies in the twenty-first century. In collaboration with over 15 partner institutions and collections as well as countless events RAY 2018 offers a summer of photographic highlights.

For the first time, RAY will open with a four-day Festival programme: From 24 to 27 May photography fans, international experts of the medium as well as artists are invited to Frankfurt to explore the medium of photography and topics surrounding the RAY 2018 theme EXTREME. With talks and panel discussions artists, renowned academics and experts of different fields as well as the RAY 2018 Curatorial team jointly investigate the phenomenon of the extreme from different perspectives. The festival programme also offers guided tours, participative workshops and a photo contest with many prizes.

Moreover, the results of the RAY MASTER CLASS, with the artist Arno Rafael Minkinen in collaboration with students of the regional art academies, will be presented in an exhibition at the festival hub, MMK 3. With this, RAY fosters an exchange between the regional art academies and international artists in the field of photography and offers young artists a public platform. The Master Class is made possible by the support of Olympus and the Crespo Foundation.
